3 Reasons
why TATA Communications Vayu Cloud Solution is Designed for You

1 Built for Growth

2 Built for Ease

3 Built for Control

Tata Communications Vayu Cloud Solution is augmented by global network reach, robust security, end-to-end managed services, and SLA-backed support as a unified touchpoint. We empower businesses to maximize their cloud investments by providing optimised cloud solutions.

Built for Growth

Cost Savings
Cut operational costs significantly with our combined CSP and MSP benefits for substantial savings.

Efficient Scaling
Benefit from fixed-rate billing, free monitoring, and zero data egress charges, avoiding bill shocks.

Quality Service
Reduce expenses on data transfer and unused resources while maintaining exceptional quality.

Built for Ease

Integrated Managed Service
Simplify IT with a single-vendor solution offering exceptional flexibility, interoperability, and seamless migration to any cloud environment.

Single touchpoint
Self-serve capability with observability via a single pane of glass, along with on-demand service assurance.

Seamless Operations
Benefit from robust SLAs and certified experts ensuring minimal disruption, day-to-day IT management, and global network reach.

Built for Control

Secure Multi-Cloud Management
Efficiently build and manage multi-cloud environments with a secure-by-design approach, including risk assessments and routine security.

Enhanced Cybersecurity
Leverage leading tools for visibility, workload protection, and threat response.

Data Sovereignty
Navigate the complexities of sovereign clouds, ensuring compliance and data sovereignty

Built for Growth	• Cost Savings • Efficient Scaling • Quality Service
+	
Built for Ease	• Integrated Managed Service • Seamless Operations • Single touchpoint
+	
Built for Control	• Secure Multi-Cloud Management • Enhanced Cybersecurity • Data Sovereignty
